The State Mil-itary Board will meet in Richmond this week to pass on some minor de-tails, and, if the spur tracks are built, the camp will open, as heretofore an-

General Sale explained that a denregard to gallroad rates, satisfactory to the military authorities, the railroad offering a 40-cent round trip rate between Norfolk and the camp site, with an allowance of 150 pounds site, with an allowance of 150 pounds of baggage on each ticket. Heretofore there has been a round trip excursion rate from Norfolk to Virginia Beach of 25 cents. A petition is now pending before the Corporation Commission to be allowed to

Has Pride in Navy.

The secretary spoke with pride of the achievements of the American Navy, declaring that "the brightest page in our history is the naval story from the time John Paul Jones said. I have just begun to fight,' to the day George Dewey salled into Manila Bay and said to his fellow officers, day George Dewey salled into Manila Bay and said to his fellow officers. Well, gentlemen, a higher power than we fought this battle to-day."

He deprecated the popular habit of underestimating the glory of the victories won by the American Navy in the Spanish War. "This habit, for it has degenerated into a habit," he said, "was born out of the magnitude of the victories and the short sightedness of the men who have thought it necessary to minimize the achievements of the fleet at Manila and Santiago, in order to give strength to the arguments advanced for a large navy. Some have seemed to think the arguments of the fleet at Manila and Santiago, in order to give strength to the arguments advanced for a large navy. Some have seemed to think the argument for naval expansion would be weakened by admitting that we had a strong naval force in 1898."

Powers to Matron.

At a special meeting of the Council Committee on Ordinances yesterday an ordinance conferring police powers on the police matron was unanimously reported for rejection. In a written opinion the City Attorney held that the matron was not an officer within the meaning of the law, and that the Council could, if it saw fit, confer police powers on the matron under the charter clause giving the city the right to confer such powers on certain employes. The request that the matron be given this authority was made by the Board of Police Commissioners and strongly seconded by a letter from Mayor Ainslie, giving the reasons why the Police Board considered it desirable. But the committee balked at "women policemen," and the petition was reported for rejection by unanimous vote.
